

## **OUR SUGGESTED PACKING LIST:**

It is advisable that you carry your belongings in soft-sided, sturdy duffle bags like the ones shown below especially for the fly in safaris. This is because all the local airlines have a baggage allowance that is strictly 15kgs per passenger including hand luggage. Any added baggage weight is chargeable.

For a complete road safari in Kenya, you can carry luggage weight of up to 23 kgs.

### **Please note that Plastic bags are banned in Kenya!**
