***Dear Esteemed Guests !***

### **Opening of Country**

Kenya has re-opened and resumed international flights from August, 01st 2020 ! Firstly, we are most grateful for this development as we have indeed had some international arrivals from different parts of the world. So far, we had the pleasure of taking guests from the US, Germany, Austria, Switzerland, France & Canada on Safari !

### **Covid Numbers**

Kenya's Covid numbers are quite low at the moment and we seem to have flattened the curve. Luckily both our infections & deaths have remained very low and the prediction that East Africa would be hit badly never came true. We are thankful for being in this situation. We are going into our "warm season" now which we believe will aid the elimination of the virus completely.

### **Arrival in Kenya**

Guests who arrive at the Jomo Kenyatta International Airport are required to have a Covid-Negative **PCVR** Test result that is less than 96 hours old. Since this can

pose a challenge for guests travelling from far (US or Canada) we are currently pushing for a much longer period (7 days) to be accepted.

We are happy to send you a COMPLETE up-date on what you need to carry along when you enter our airport. Pls. e-mail us for further information:
